CONTEMPORARY DINING TABLE

CONTEMPORARY DINING TABLE

The Contemporary range is manufactured in a solid Victorian Ash hardwood. The main design feature of the contemporary range is its tapered leg, which gives it a light and trendy appeal. This range is well matched with our timber frame seating. The dining tables are manufactured to the specifications required within any project. Laminate tops can be provided for a more hard wearing and durable surface. Cut outs in the side rails and adjustable gliders are optional features allowing for greater access for wheelchair use.

DIMENSIONS

Height	Width	Depth
Various	Various	Various
