Island

Island is a bench system, consisting of 6 different modules designed to meet the flexible requirements of daily use in modern environments. A series of small islands that work as individual modules or interlock with an upholstered backrest to create larger formations to suit the needs of your space. The organic shapes and multiple options create warm, welcoming and human seating areas. Island is accessible from all sides, providing a space to socialize or work collaboratively in a diverse and informal setting.

Designed by KILO

Kilo is an idea-driven industrial design studio creating with a ho-listic approach and often exploring the potential of crossbreeding elements or attributes from different disciplines, and turns them into new functional and aesthetic hybrids.
