

+Halle[®]

Runway

Runway allows the creation of unique and graphic units with just a few elements. Alternatively, the units can be put together in larger combinations. Seen from above, the units create graphic impressions that interact with the details of the contemporary architecture. The high level of individualism is supported by the endless possibilities for combinations in choice of fabrics, colors, and contrast stitching. The design of the angled sides merges aesthetics and function as it offers a dynamic expression and easy ergonomics when rising from the seat.

Designed by busk+hertzog

The Danish design duo was established in 2000 with a clear vision of being innovative and professional - but also with the aim of leading and inspiring a new generation of designers to further develop the Danish design legacy. The duo is located in Lisbon.

Creating human spaces

+Halle is a Danish high quality design furniture brand. We strive to add value to public areas by contributing to the creation of Human Spaces. The basic idea behind +Halle can be put down to a basic understanding of people.
