

# +Halle®

#### **Runway**

Runway allows the creation of unique and graphic units with just a few elements. Alternatively, the units can be put together in larger combinations. Seen from above, the units create graphic impressions that interact with the details of the contemporary architecture. The high level of individualism is supported by the endless possibilities for combinations in choice of fabrics, colors, and contrast stitching. The design of the angled sides merges aesthetics and function as it offers a dynamic expression and easy ergonomics when rising from the seat.

#### Designed by busk+hertzog

The Danish design duo was established in 2000 with a clear vision of being innovative and professional - but also with the aim of leading and inspiring a new generation of designers to further develop the Danish design legacy. The duo is located in Lisbon.

#### **Components**

50

105

Components dimensions (all components have a seating height of 42 cm)

Dimensions defined in centimeters

### **Runway Specifications**

**Design** busk+hertzog

Material High quality foam on plywood frame. Plastic glides. Metal connecting brackets

**Fabric** Available in all textiles an leather types

Config. On the following page you can find standard configurations that can be used as templates. Alternatively, combine

the standard components and make an individual layout. The only limitation is that you need a minimum of one

ADDITION component per 3 meter of base set/extension.
