SCEPTRE EXECUTIVE DESK

The Sceptre Executive Desk incorporates stainless steel and timber veneer into its high end design. The contemporary minimal elements that have been built into this executive desk set it apart. Its design can be appreciated through its hidden pencil and return drawers. A thin or built up desk top option and the 5mm shadow line creates a floating detail. It is accompanied by storage elements such as credenzas to complete the look. As it is Australian made, this workstation can be completely customised.
