

ecf | TOMOKO

TOMOKO

Tomoko is a sheltering, acoustic piece of office furniture for privacy and concentration in open-plan offices, lobbies, recovery rooms and other open spaces. Tomoko helps you to create an immediate territory of your own by eliminating elements that interfere with your concentration, such as noise or visual distractions. At the same time, it signals to others that you are not to be disturbed. Tomoko can also be built as a light fitting. The hood is made of 100% recyclable polyester felt and the base is powder-coated.

DIMENSIONS

Height	Width	Depth
