ecf | RETREAT FOCUS

Need to escape from the interruptions and distractions at your desk?

Our versatile Retreat Focus range creates quiet areas within the open plan office that allow you to concentrate, be more productive and get work done.

Retreat

Focus

Retreat Focus is a versatile range of free-standing pods and screens which support agile work throughout the open-plan office. The range is available in a variety of configurations to meet the demand for individual focus or collaborative focus work.

As a modular system, each setting is made from a wide-ranging kit of parts. Panels clip together using our unique hidden connection system, which allows future reconfiguration if required. Upholstered wall panels combine with worktops to offer a cost-effective, flexible alternative to permanent quiet rooms or offices.

Because we live in a world of portable electronic devices, you can choose to have power, data, HDMI and USB all integrated into the booth. Power and data can either be fed from the floor or from the ceiling.

Choose from curved or straight walls – the Retreat range offers variety while still retaining a similar design language throughout a space.

Retreat is designed and manufactured in New Zealand and can be easily customised according to your needs. All that's left to do is choose a colour and fabric to suit your interior style.

Retreat

Focus

Cable Management

FEATURES

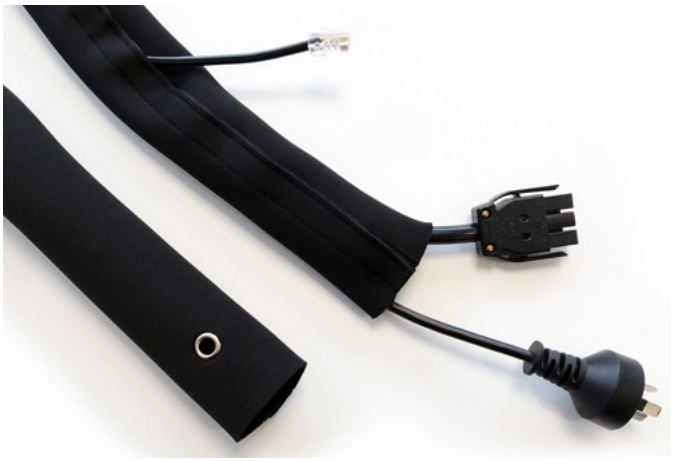
Each Retreat Focus worktop includes an under-desktop cable tray for managing cables and mounting up to 6x power outlets

Underdesk Cable Tray:
Powdercoated steel unit is mounted to the underside of the desk. All power cords and cables plug into this unit. The cable tray has ability to add up to 6x power outlets and up to 4x data outlets as well as slots along the length to allow for Velcro or cable ties to keep the cables in place.

Optional Cable Sling and Sleeve:
Provides streamlined cable management for cables underneath the desktop, power outlets are also mounted to the underside of the desktop. Cable sleeve is used to bring power to the cable tray/sleeve and up to the desktop

Underdesk front facing cable dump tray (under desktop)

Optional Cable sling (under desktop)



Optional Cable sleeve
