ABOUT SEDUS

Who we are and what we do

Sedus Stoll AG was founded in 1871 and is one of the leading European manufacturers of office solutions. The product range includes seating furniture, such as swivel and visitor chairs, as well as office, conference and contract furniture – all “Made in Germany”.

The company headquarters is located in Dogern on the High Rhine in southern Germany. Another production site is in Geseke, North Rhine-Westphalia. Sedus is a company with a long tradition and 150 years of company history that has repeatedly set standards – in terms of ergonomics, manufacturing processes and sustainability. As a synonym for innovation, technology and aesthetics, Sedus constantly enriches the “office world” with new product ideas and contemporary concepts. Sedus puts a strong focus on current trends and changes in the world of work. New organisational structures and forms of work require flexible, aesthetic furnishings and custom-made solutions that enhance collaboration, communication and movement. A particular emphasis is placed on the health and well-being of the users.

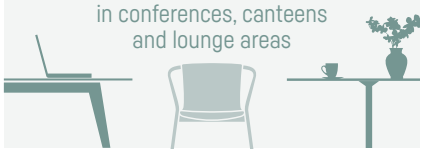
Why se:mood

Reduced in design,
suitable for a variety of applications
in conferences, canteens and lounge areas



The light chair is
stackable up to 5 units
and can be stored in a space-saving way

The PET felt seat shell
is soft, at the same time,
robust and shape-retaining
as well as 100 % recyclable

Truly stylish and sustainable:
With plastic that is made of
100 % recycled material

The innovative approach to motion provides for an activating movement of the backrest and, therefore,
extra comfort

Various
models and combinations due to

Certification for the se:mood

se:mood

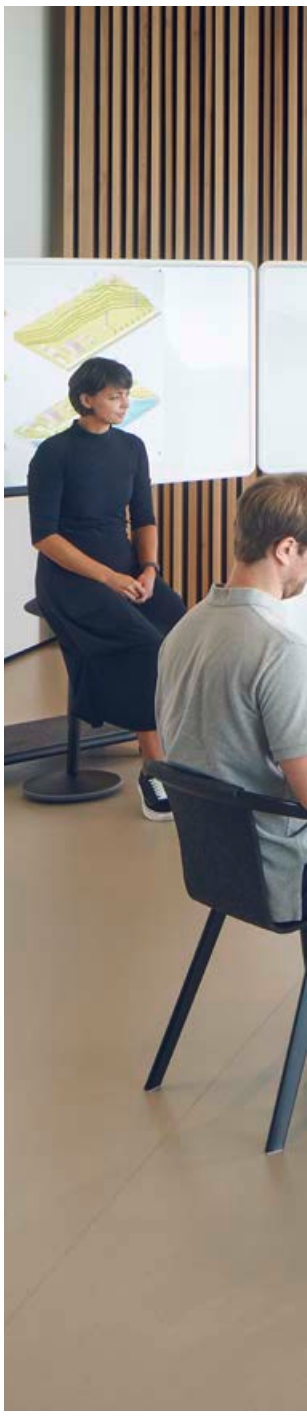
Work together, take a break together

When it comes to modern office and workplace concepts as well as areas in which people work creatively together, the design requirements are particulary high. The interior design should be harmonious and, at the same time, adaptable, with products that create a feel-good atmosphere without being too imposing. The se:mood makes it all possible: Surprisingly different, activating and versatile.

With its puristic design, the se:mood fits everywhere where spontaneous seating is required. Whether it's a short conversation in the waiting area, a short break in the cafeteria or concentrated reading in the library, the four-leg chair is an elegant partner.

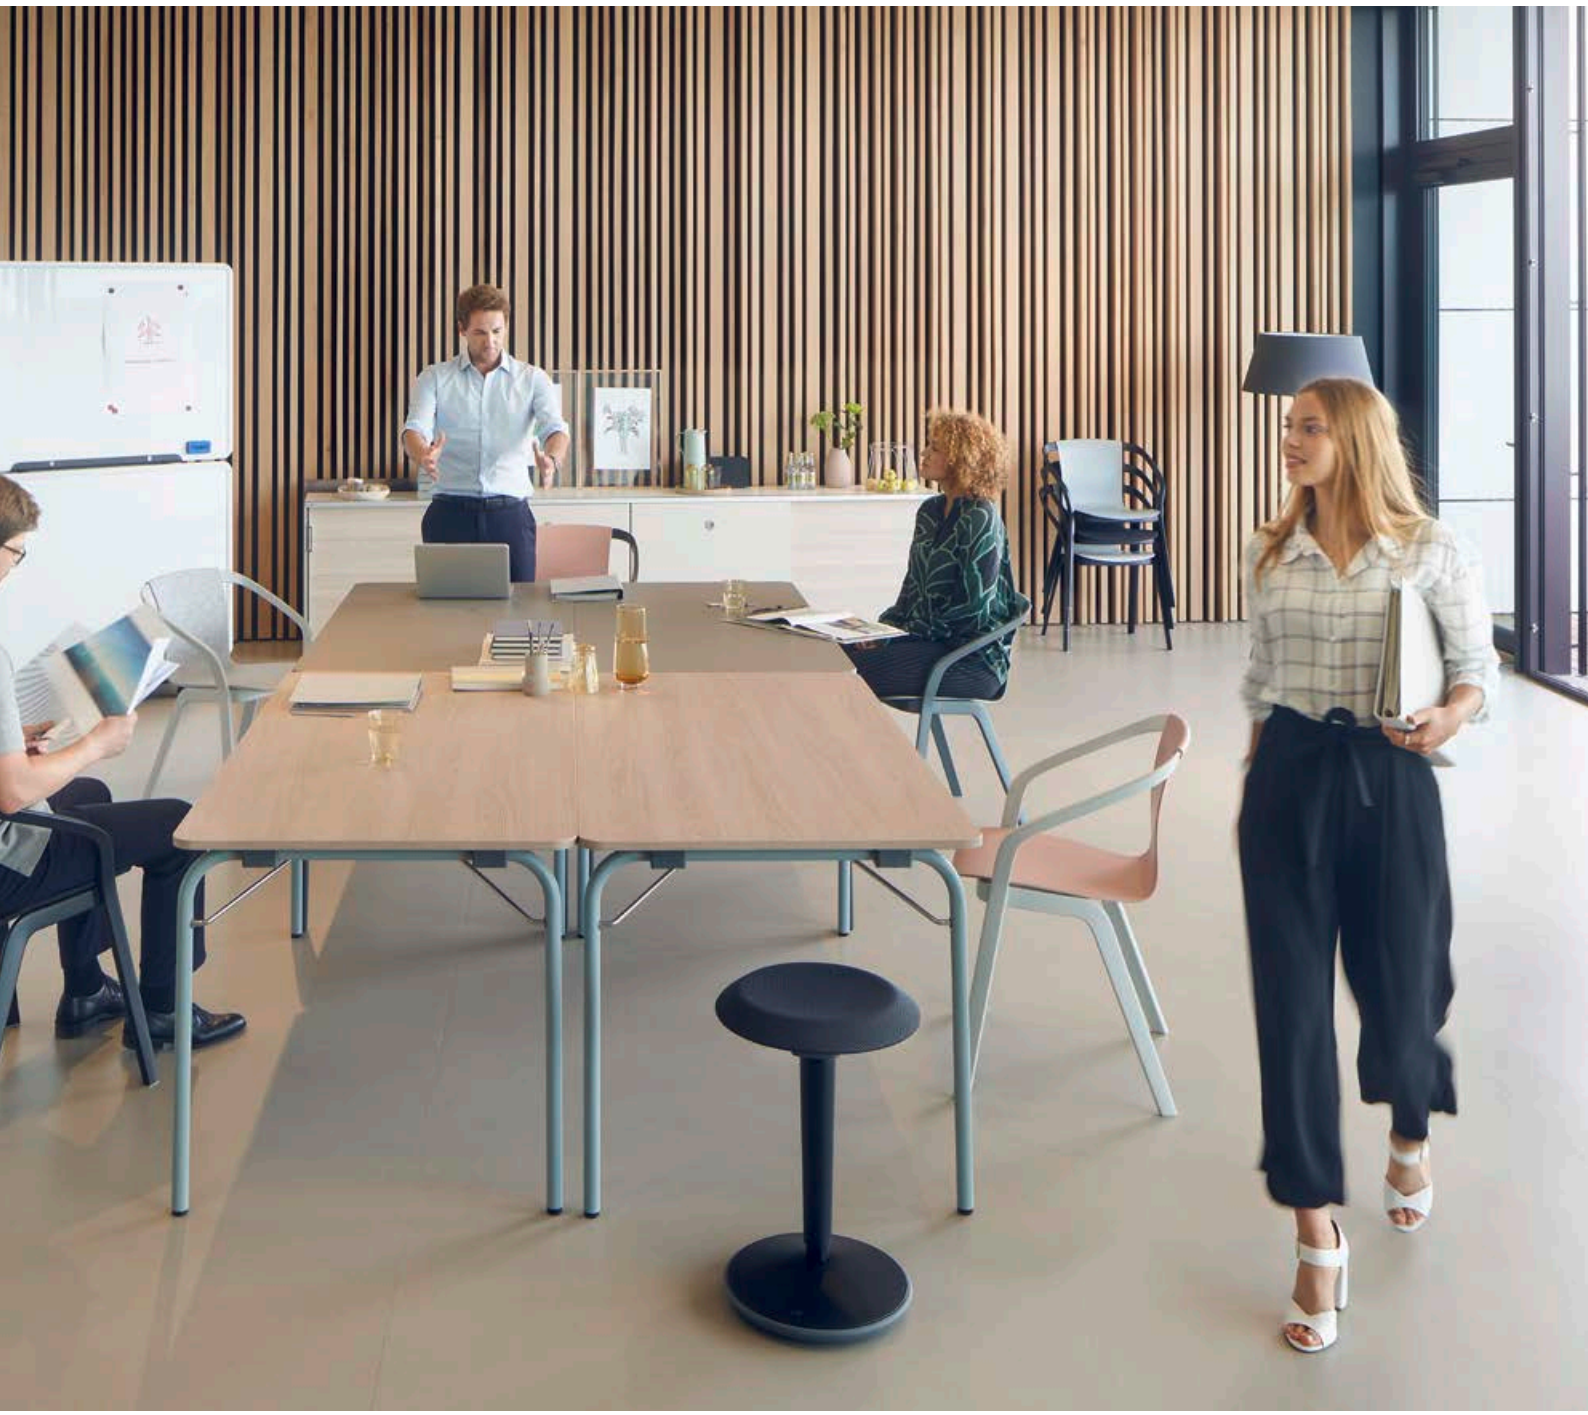
COMFORTABLE AND VERSATILE

Innovative design with a slim silhouette



At first glance, it is an elegant four-leg chair; at second glance, it is a refined piece of seating furniture. The seat shell and backrest of the se:mood are one piece, the armrests are an integral part of the frame and are connected to form a round arch. Since the rear seat area of the shell is free-floating, the backrest assumes an activating function. The result is a seating experience that reminds one of a cantilever chair – all due to the innovative design.

The se:mood is equally inspiring from a manufacturing perspective, as the four-leg chair makes a valuable contribution to sustainability and has an excellent environmental footprint. The plastic model is made of 100% recycled materials that make the chair a real environmental hero. The optional seat shell made of PET felt is also produced according to the principle of reutilisation and is 100% recyclable.



Attractive all-rounder
It can be perfectly used as a meeting chair, it fits in libraries and co-working areas and cuts a fine figure in cafeterias and canteens. The se:mood is equally suitable for both indoors and outdoors: It can also be temporarily used in covered terrace areas.

VERSIONS AND DIVERSITY

Perfect fit everywhere

The light appearance and the elegant form are the result of the reduced design. Consisting of frame and shell made of a maximum of two materials, the four-leg chair creates a calm effect and yet makes a statement in a wide variety of environments. The following principle applies: black always works, the models in basalt grey and pale grey bring modern flair to any room. Can the se:mood be a little more colourful? The seat shells in antique pink and fjord green provide additional accents. Optionally, the seat shell is also available in PET felt – in light grey or anthracite.

Seat shell in plastic

Black | Basalt grey | Pale grey | Fjord green | Antique pink

PET felt seat shell

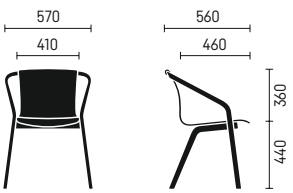
Light grey | Anthracite

Frame

Black | Basalt grey | Pale grey

Seat cushion made of wool felt

Grey | Graphite



se:mood is stackable
up to 5 units in
a space-saving way

Beautifully designed

A harmonious working environment contributes significantly to well-being and productivity. Well-conceived furnishings, pleasant fabric and material combinations as well as the choice of colour accents are key factors for achieving this goal. Whether Smart Balance, Soft Being, Urban Living or Multi Creation – the se:mood can easily be adapted to any of these colour schemes.

Do you need support in planning and implementation?
The experts from Sedus Workplace Consulting are looking forward to assisting you in designing your modern smart office. From analysing the floor plan and designing the concept to choosing the colour from the Sedus colour cookbook – everything comes from a single source.

Smart Balance

light, reduced, calm, structured, functional, technical

Urban Living

comfortable, respectable, elegant, urban, intense, timeless

Soft Being

gentle, calm, balanced, natural, inviting, regenerative

Multi Creation

motivating, inspiring, creative, dynamic, active, open, free
