# A more relaxed approach to work: Sedus sweetspot

sweetspot not only provides your office with especially attractive and comfortable lounge furniture, but also helps to create a relaxed atmosphere that promotes productive well-being. Regardless of whether it is used for a place to meet and engage in a creative exchange, a retreat for concentrated work or to welcome visitors in style – sweetspot combines business with pleasure. And it does so in an excellent manner, as the international design awards underscore.

reddot award 2014  
honourable mention

# The essence of concentration and inspiration

Escape the routine office atmosphere and retreat to a spot that inspires you, where you can develop new ideas and concentrate on your work. sweetspot offers the ideal conditions, with its inviting look and excellent ergonomics providing great comfort in a lounge seating style. At the same time, the relaxed, slightly upright sitting posture aids creative processes and concentrated working – even for extended periods.

## Intelligent ergonomics

The angle of the seat and backrest is slightly pitched so that the user is not only relaxed while sitting, but can also concentrate on work.

## A relaxed approach to work

Softly curved armrest wings facilitate changes of sitting position and make it easier to work for extended periods.

## As comfy as a sofa

The one-piece shell with its welcoming, open shape is fully upholstered.

## Genuine comfort

11 cm deep, the seat foam is extremely comfortable, even when sitting for extended periods.

## Pleasant seat height

With a seat height of 430 mm, sweetspot is higher than conventional lounge furniture, which is why it is so comfortable for working.

## Softly cushioned

The gas lift mechanism compresses approx. 20 mm and ensures immense comfort from the second the user sits down.

## Elegant through and through

The slim lines of the four-star base enhance the high-quality look.

## Perfect addition

sweetspot side table, sweetspot lounge table and sweetspot low table are ideally matched to the sweetspot lounge chairs.

# Sustainability down to the last detail

Sustainability and quality “Made in Germany” have been key corporate principles at Sedus for more than 50 years. These principles are embodied in Sedus sweetspot and reflected in the way we work: designing products which are recyclable, using ecologically tested materials, conserving resources, being energy-aware in our manufacturing and conducting ongoing quality tests.

Thus, sweetspot lounge furniture is made using a solvent-free powder coating instead of the conventional paint finish. An ultra-modern and extremely environmentally-friendly electroplating process – where the production residue containing metal is completely re-used – is another strand of Sedus’ philosophy of quality and sustainability.

## **Visible precision**

The perfect seams show the high quality of workmanship in every detail – and are one of the most visible signs of the durability of Sedus products.
