TIFFANY

# TIFFANY

The Tiffany has a square, modern look and can be used in a contemporary dining area. Paired with a square table, this timber European beech frame makes for a complete modern dining room. The width of the chair allows for versatility in use for a range of patients as it is slightly wider than a standard dining chair. The back is separate to the seat which allows for easy cleaning and a minimalistic look.

## DIMENSIONS

Height	Width	Depth
