ABOUT SEDUS

Who we are and what we do

Sedus Stoll AG was founded in 1871 and is one of the leading European manufacturers of office solutions. The product range includes seating furniture, such as swivel and visitor chairs, as well as office, conference and contract furniture – all “Made in Germany.”

The company headquarters is located in Dogern on the High Rhine in southern Germany. Another production site is in Geseke, North Rhine-Westphalia. Sedus is a company with a long tradition and more than 150 years of company history that has repeatedly set standards – in terms of ergonomics, manufacturing processes and sustainability. As a synonym for innovation, technology and aesthetics, Sedus constantly enriches the “office world” with new product ideas and contemporary concepts. Sedus puts a strong focus on current trends and changes in the world of work. New organisational structures and forms of work require flexible, aesthetic furnishings and custom-made solutions that enhance collaboration, communication and movement. We place a particular emphasis on ensuring the health and well-being of all who use our furniture.

Why se:motion net

WORK CREATIVELY AND FREELY

A swivel chair for more freedom of movement

New ideas are on the agenda where creative and communicative work is carried out. The exchange of ideas within the team, the quick change of workplaces and spontaneous brainstorming rounds make a decisive contribution to this process. This is where se:motion net comes into play: With its puristic design and air-permeable knitted membrane, it brings along the lightness that is required for spontaneous, flexible work.

COMFORTABLE AND FLEXIBLE

Cosy comfort for every workplace

se:motion net stands out with its unique, kinematic movement concept and the well-proven seating comfort which is achieved without any adjustment effort. The shape, with the custom-made knitted membrane, and the design, with the multifunction armrests, are particularly suitable for agile workplace concepts, whether for start-ups, co-working areas or home offices. It is the simple idea of flexibility that makes se:motion net special – just sit down and get started.

Active and ergonomic sitting at any time

Simplicity of use and ergonomics are not contradictory terms: The seat cushion, the backrest with adjustable lumbar support and the multifunction armrests ensure comfort and promote a healthy sitting posture. Upright or leaned back – the generous opening angle of 23 degrees encourages more movement when sitting.

VERSIONS AND DIVERSITY

The ideal model for the office and home office

Whether in black or pale grey, the se: motion net exudes a sense of dynamic lightness. The backrest is equipped with a comfortable knitted membrane that is air-permeable and breathable. Black, grey, light grey, sand beige, red and petrol are available for the backrest colour design. The seat upholstery can be chosen in a matching colour from the Sedus fabric collections. The perfect match for the working environment – classic and timeless for the office or cosy and chic for the home.

For a harmonious overall appearance

A harmonious working environment contributes significantly to well-being and productivity. Well-conceived furnishings, pleasant fabric and material combinations as well as the choice of colour accents are key factors for achieving this goal. Whether Smart Balance, Soft Being, Urban Living or Multi Creation – se:motion net can easily be adapted to any of these colour schemes.

Do you need support in planning and implementation?
