A blank canvas for modern work and public spaces. The NEST System Table 2.0 now comes in three heights, two widths, and four modules, offering endless configuration possibilities.

With its flatpacked, knock-down construction, it's easier to assemble, more sustainable, and available at a lower price point — all while retaining the design quality and flexibility that define the NEST collection.

Designed by Form Us With Love

While renowned for an explorative process, this Swedish studio delivers minimal and improved solutions for everyday objects. Continuously referred to as responsible and critical, the studio's mission is to create design applications based on a circular economy. The studio is famous for challenging typologies of the public realm, positioned between human behaviour and industrial sustainability. This is precisely why; +Halle®'s Annual Briefs on Dwelling, Sharing and Producing were given to the studio.

How it works:

2 widths:
100 cm / 140 cm

Choose between two widths to match the scale of your workspace — from compact settings to expansive layouts.

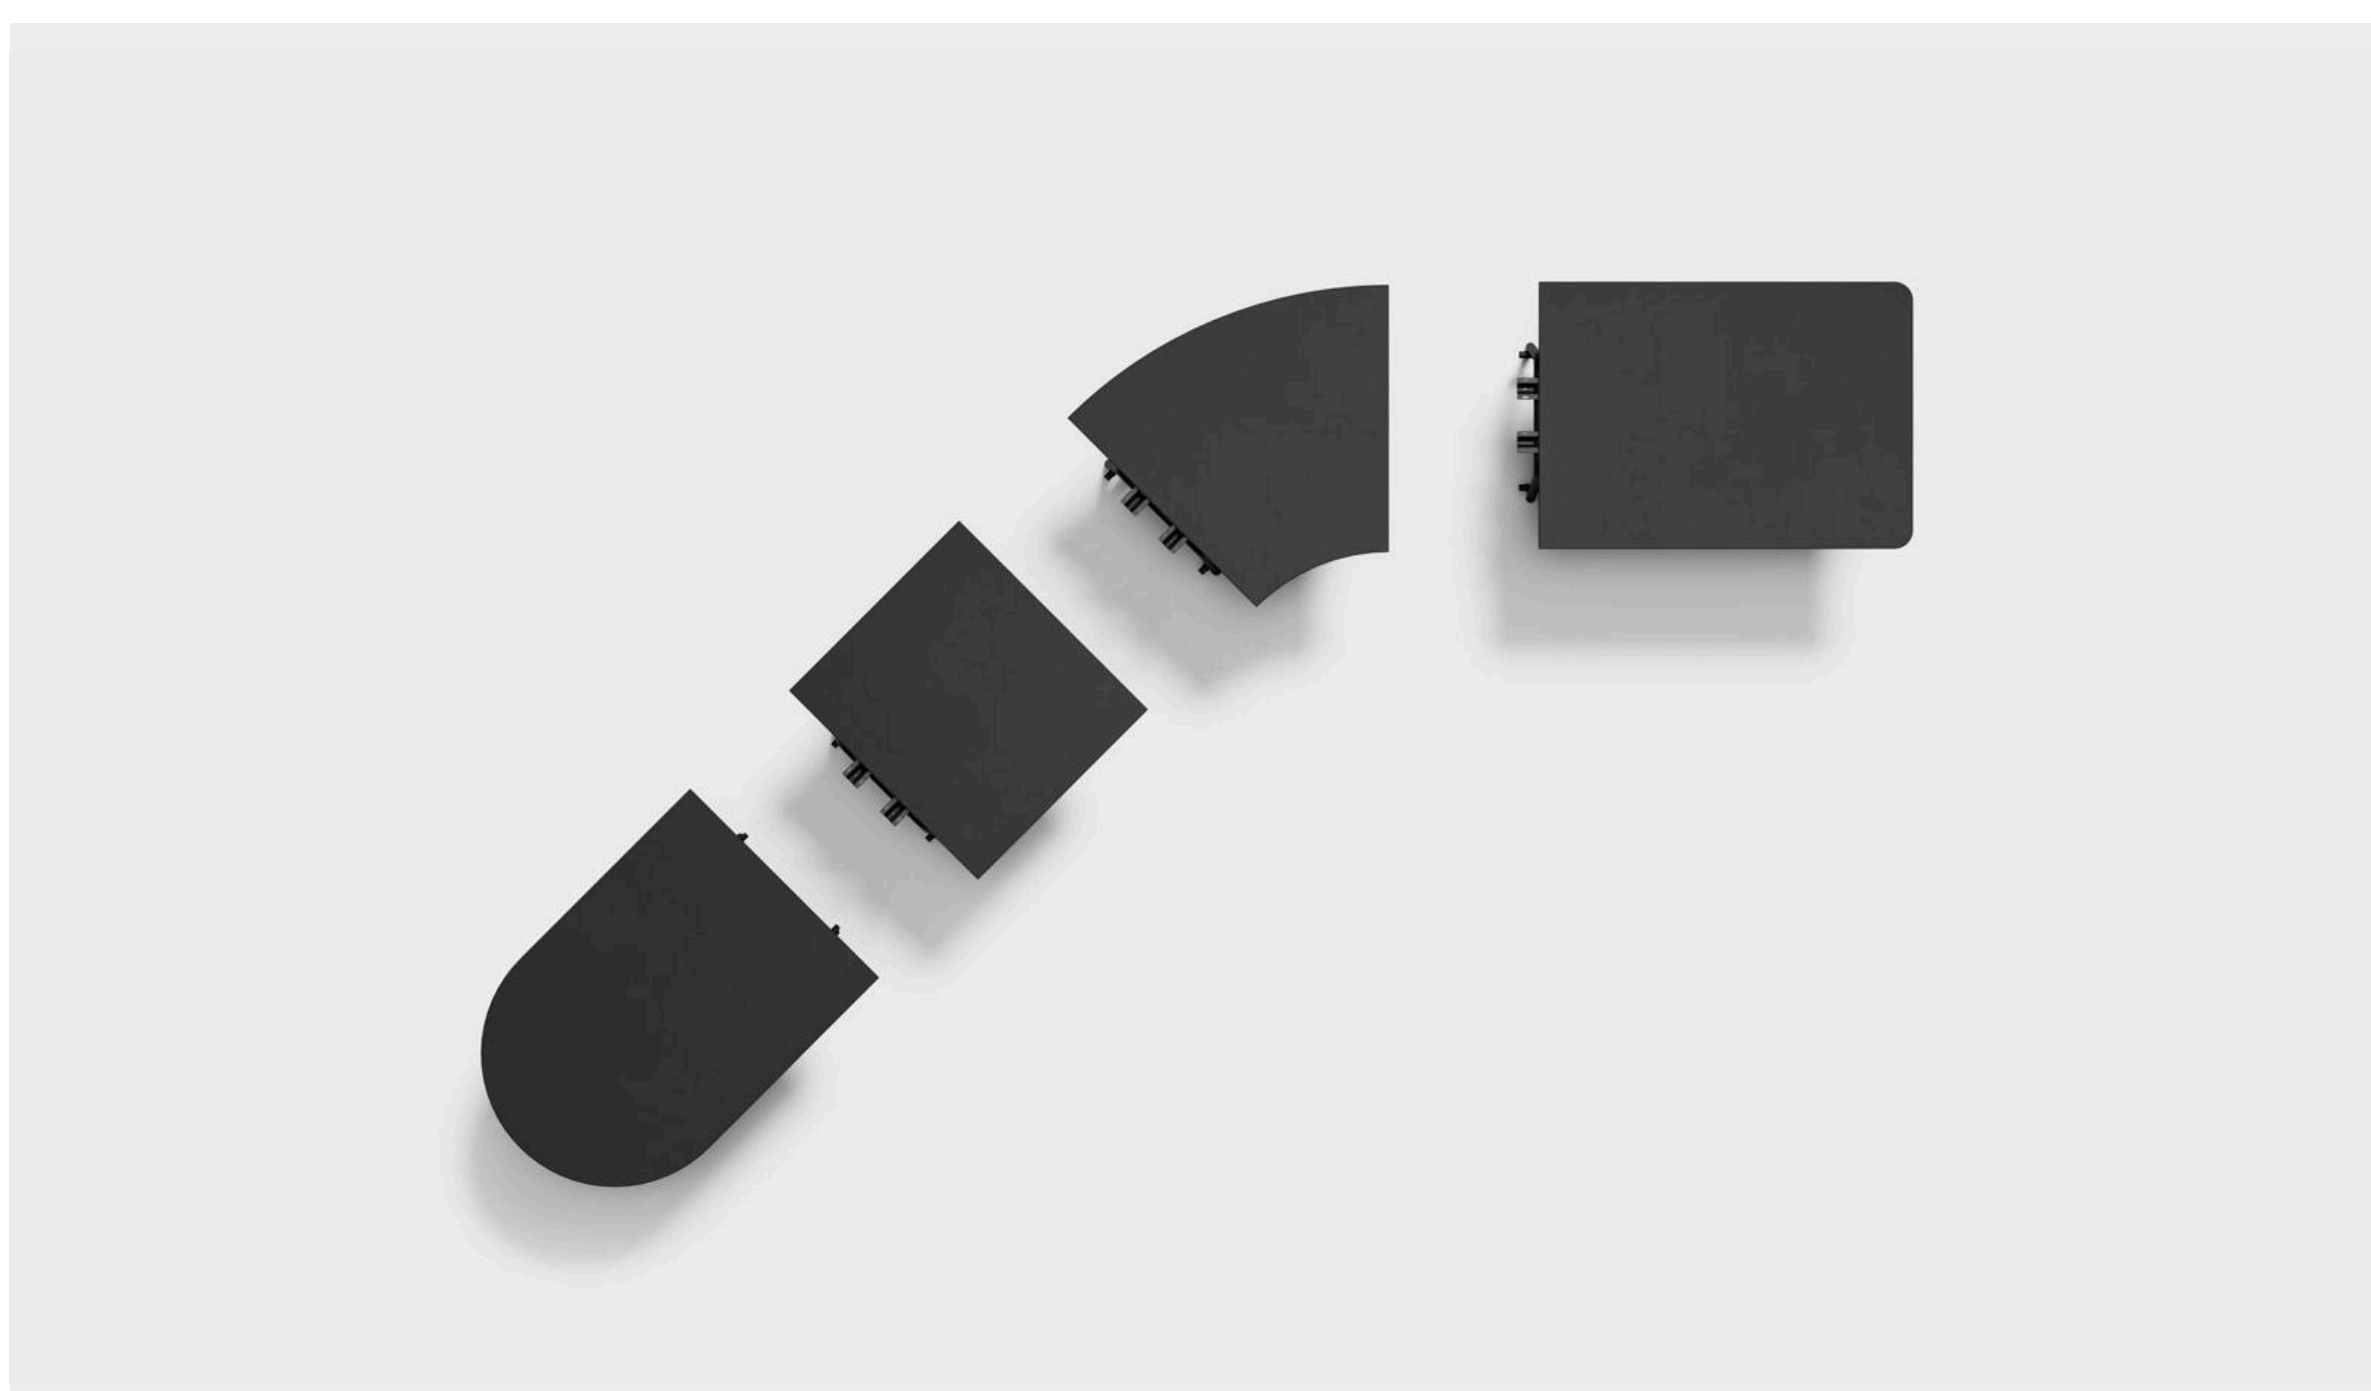

02

3 heights:
74 cm / 95 cm / 105 cm

Available in three heights, the system supports everything from seated work to stand-up collaboration.

03

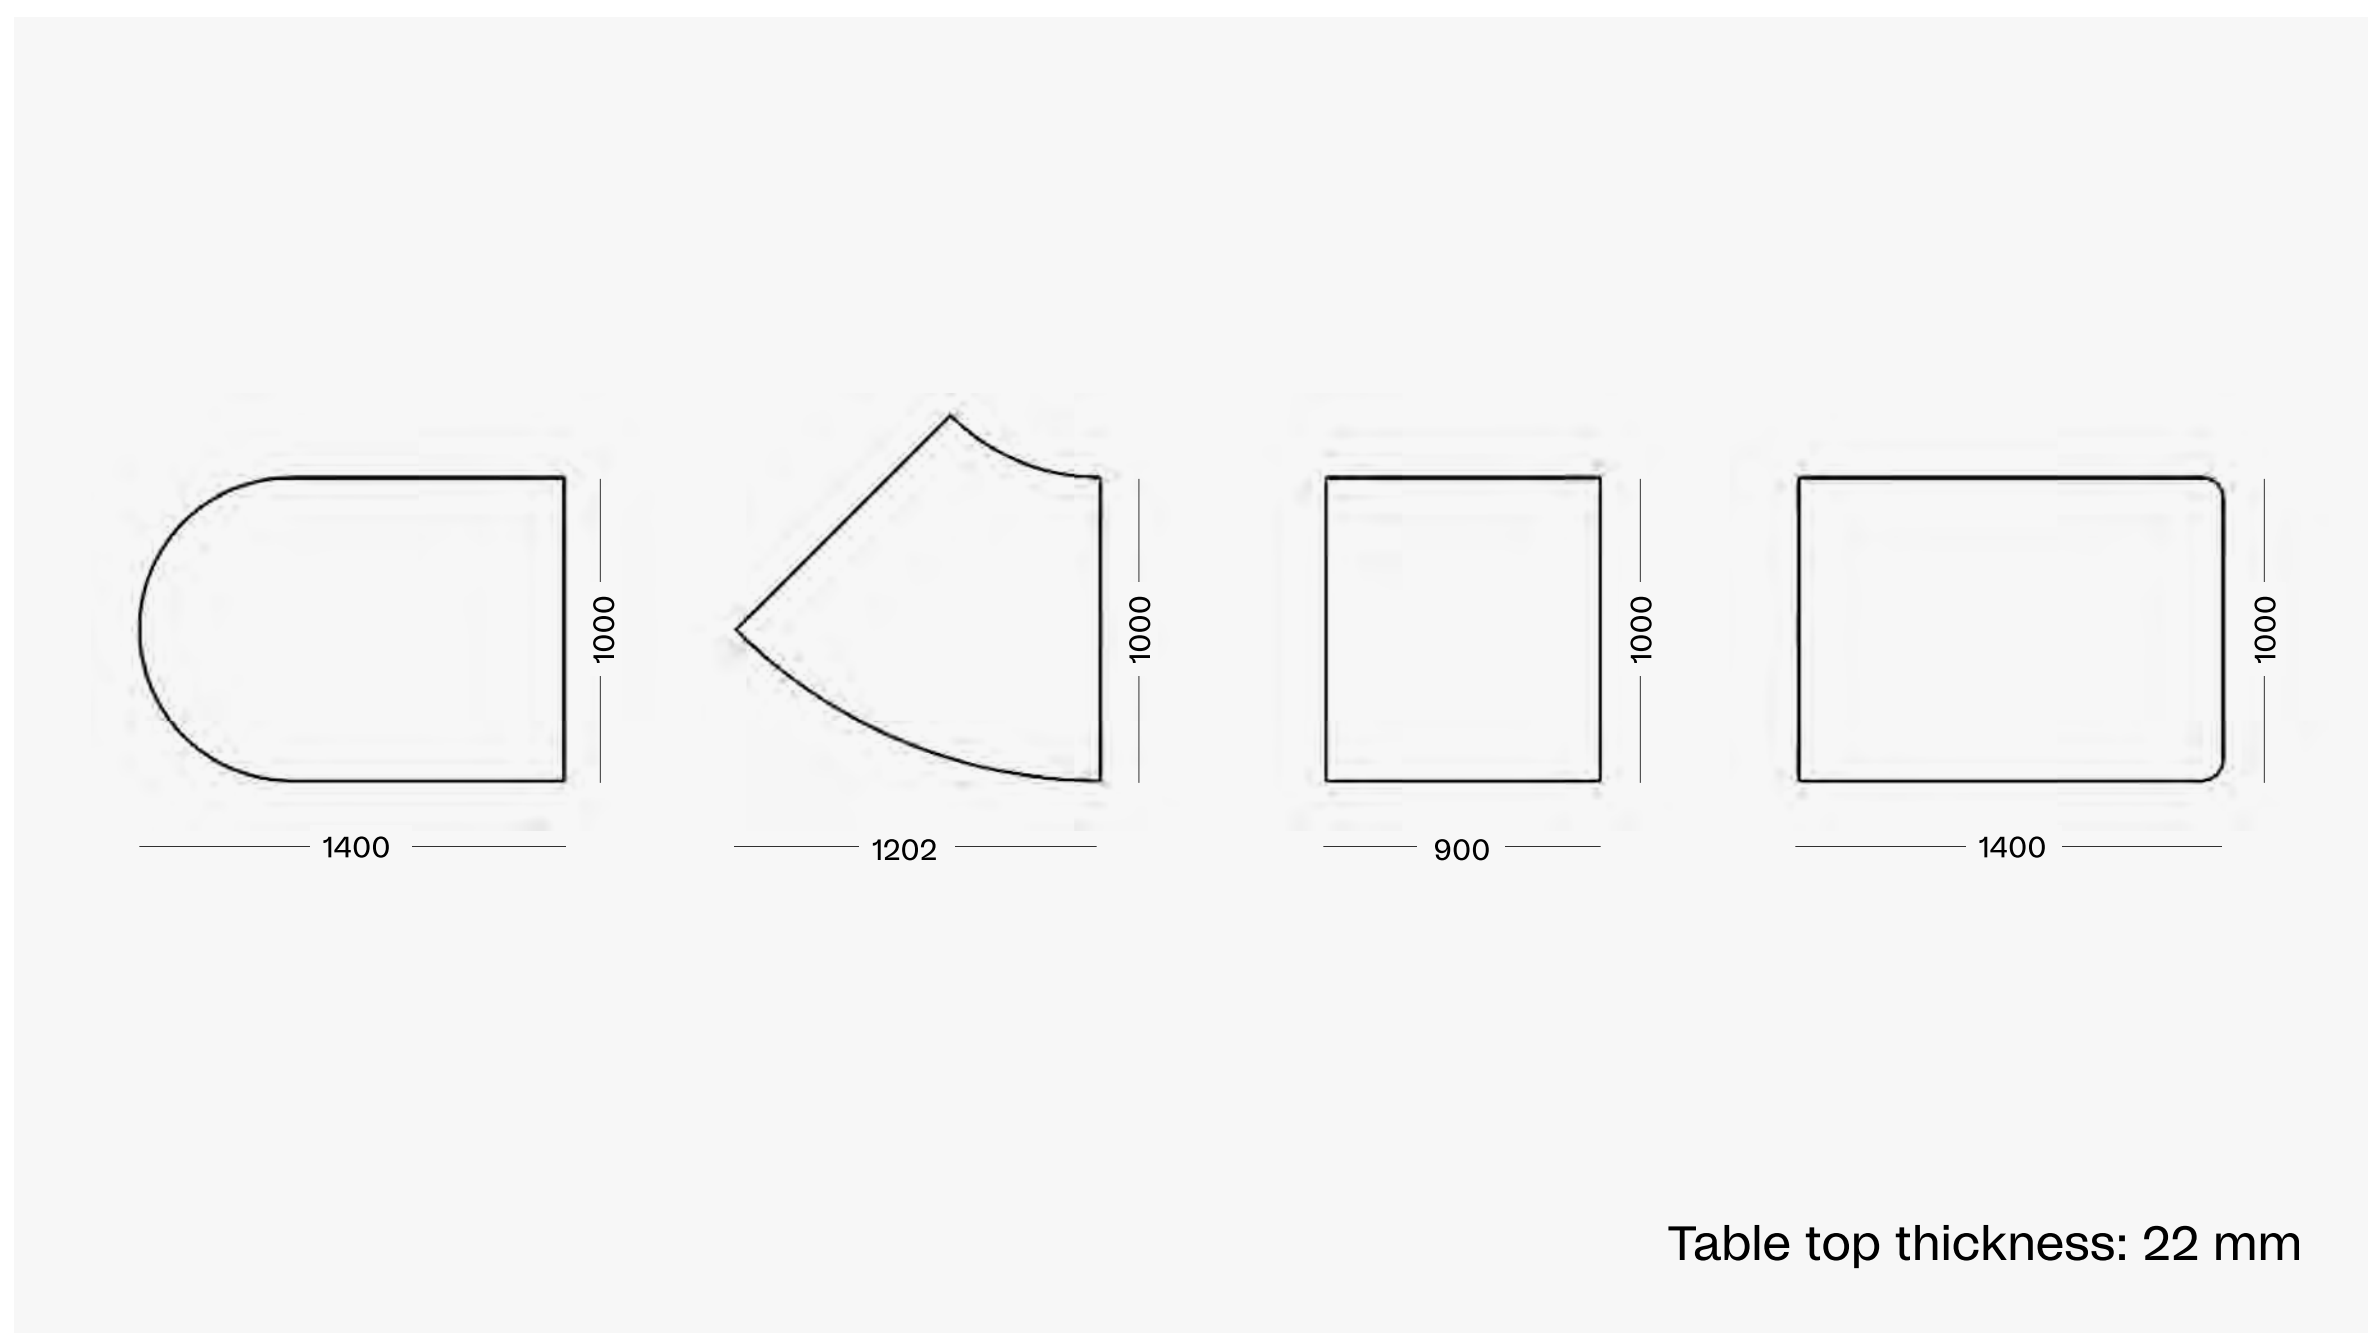

4 Modules:
Round End / Center / Angle / Square End

A table is always ended by a 'End' module or a 'Center/Angle' module with additional cost for wall mounting base. 'Center' and 'Angle' modules cannot stand alone.

W140

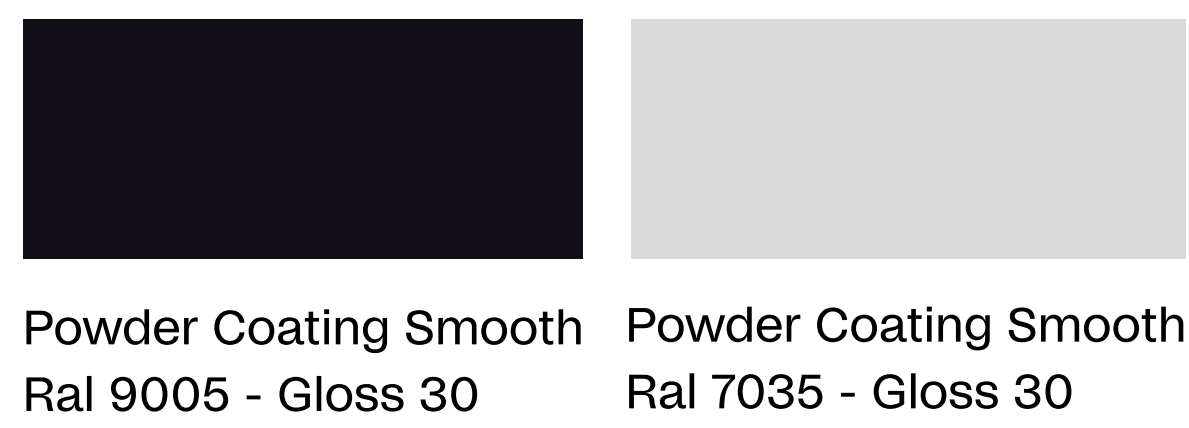

Standard Tabletops:

Choose from an extensive range of laminate (Fenix NTM® nanotech surfaces), or oak veneer tabletops to create the perfect aesthetic and tactile experience. Or get in touch to know about other tabletop options.
NB! Width 140 is not available with oak veneer tabletop!

Standard Frame:

Frame in powder coated steel — colour option must be advised when ordering.
Additional cost for standard Classic RAL colors: 20%

Tabletop:

Laminate (Fenix NTM® nanotech)
Oak veneer (NB! Width 140 is not available with oak veneer tabletop!)

Get in touch regarding other tabletop solutions

Frame:

Steel

Adjustable feet:

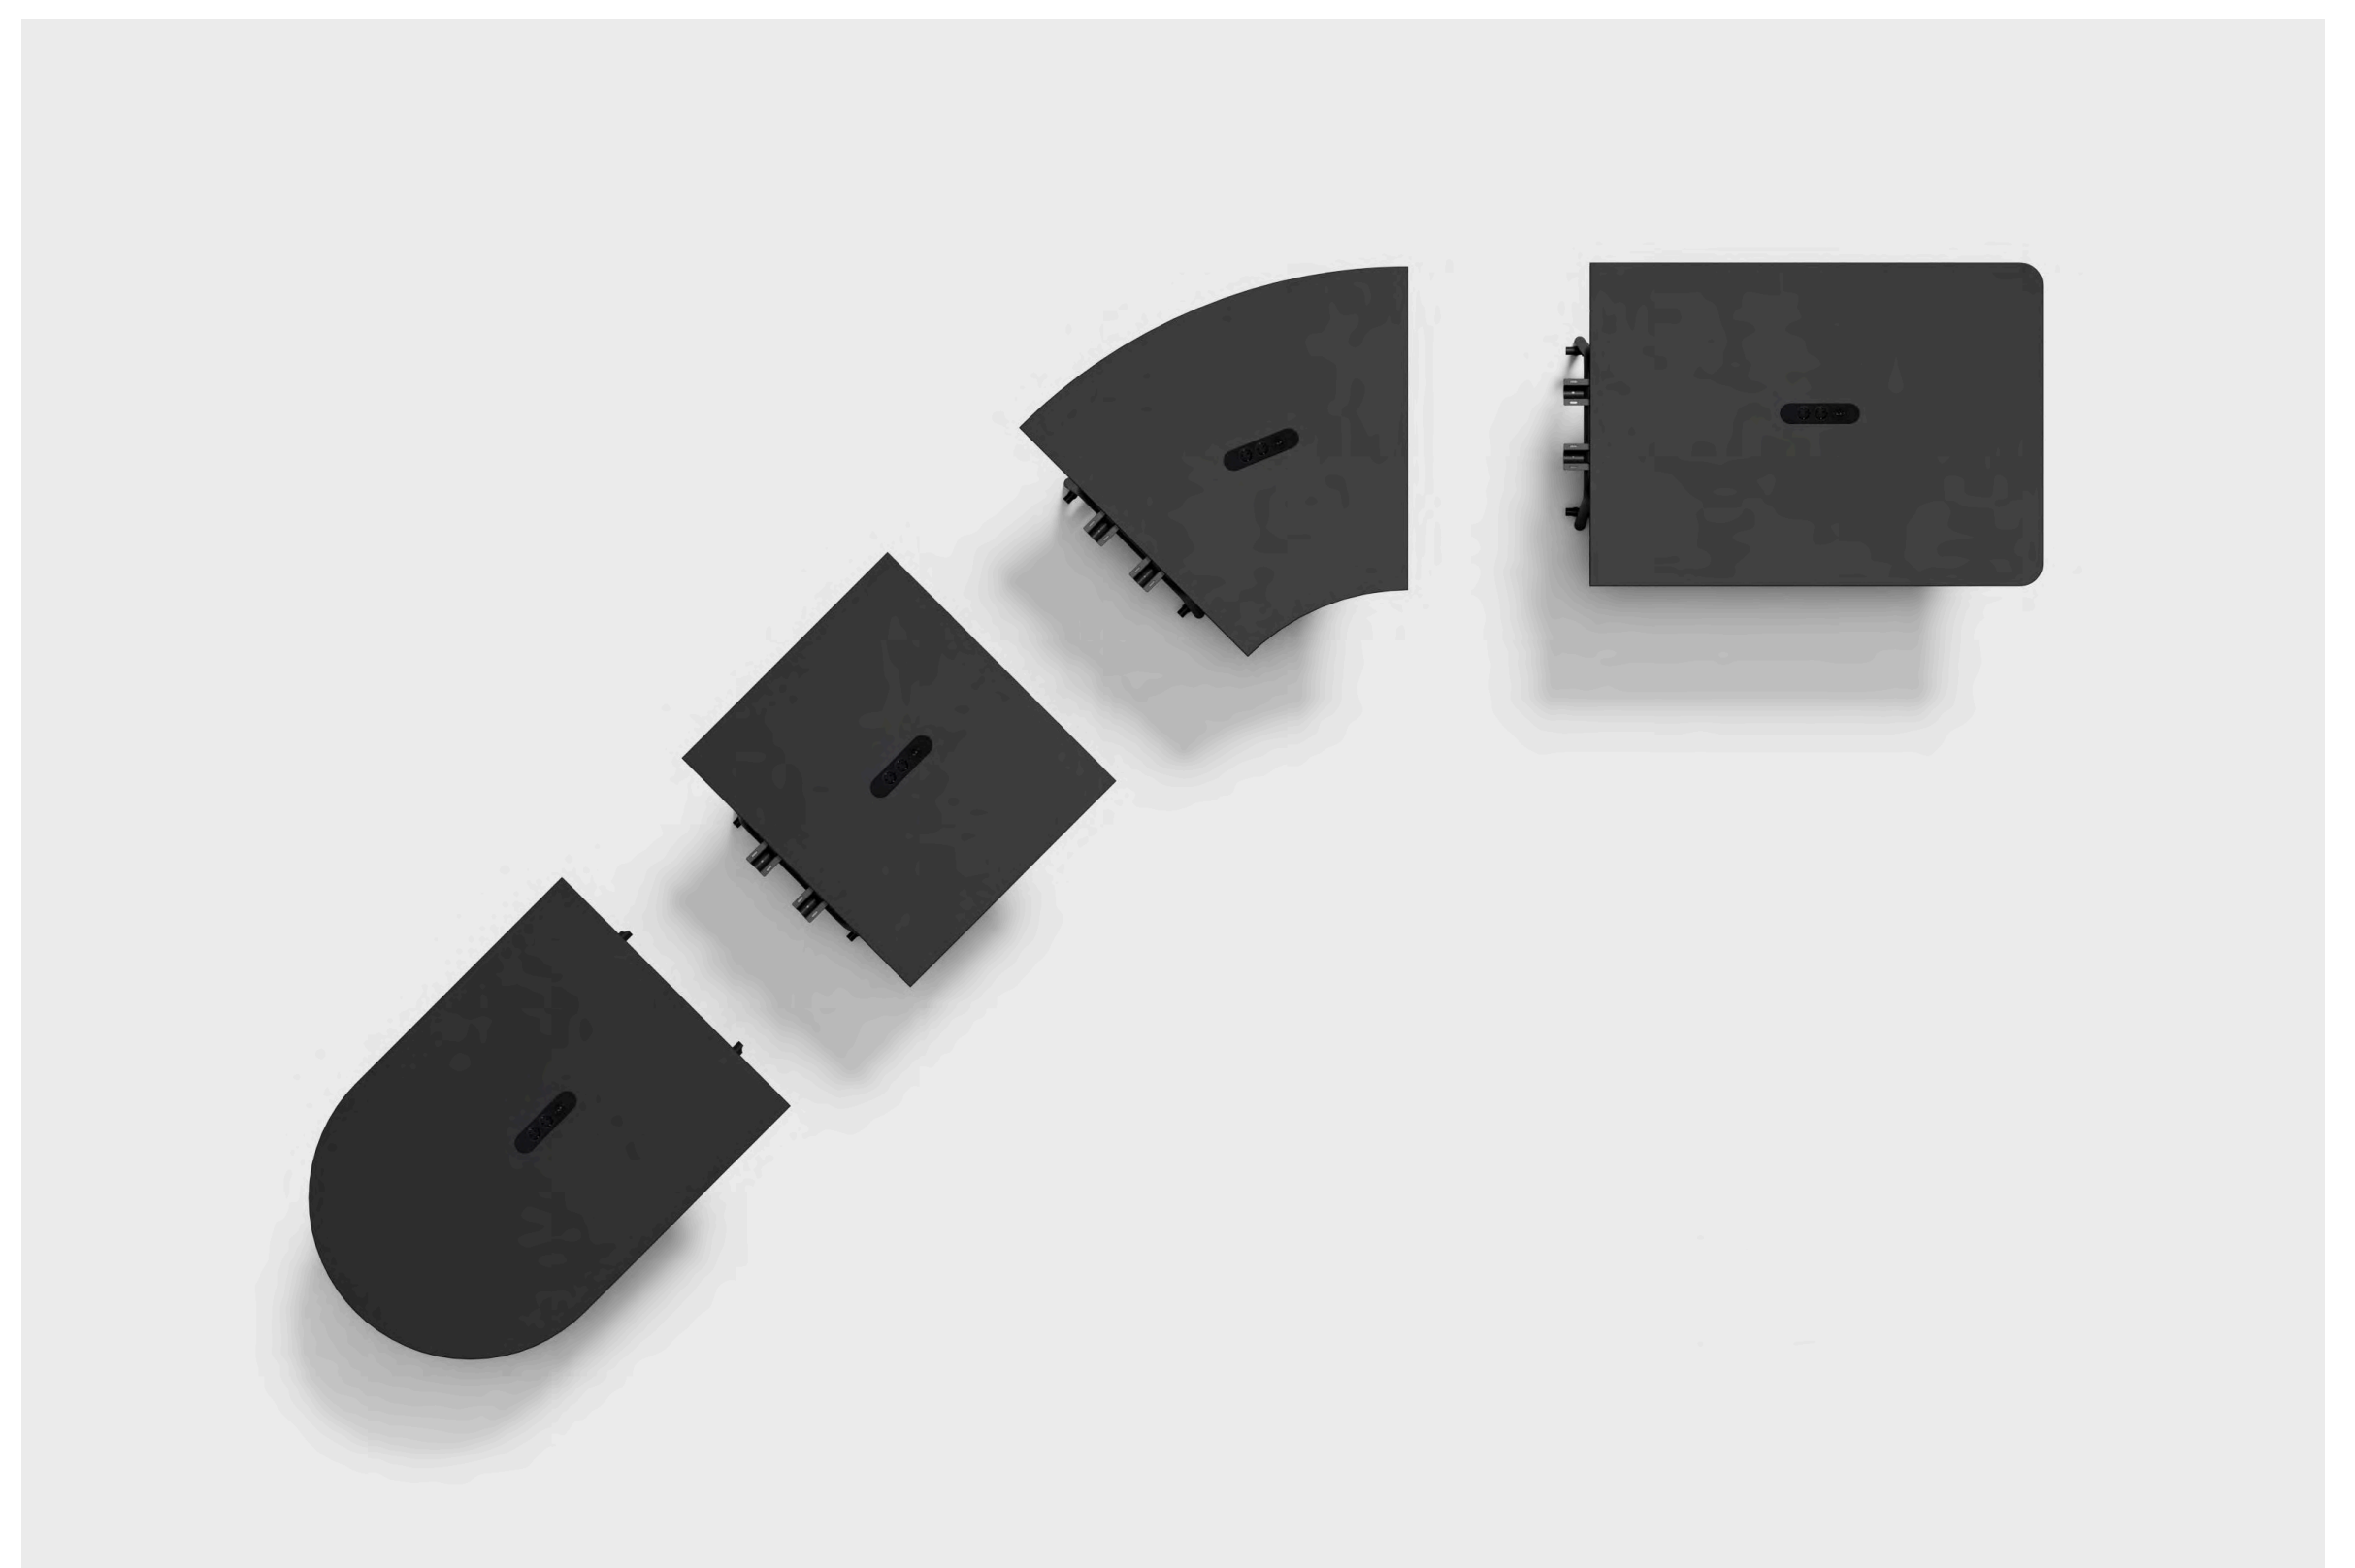

Plastic

Power options

Integrated power options from OE are available.
Choose between an AC plug and/or USB-A and USB-C.

Example of OE Plateau 3 module installed in End Square module

It is possible to add the OE Power option to all modules
— it will be installed in the center of the module.

Standard option from OE:

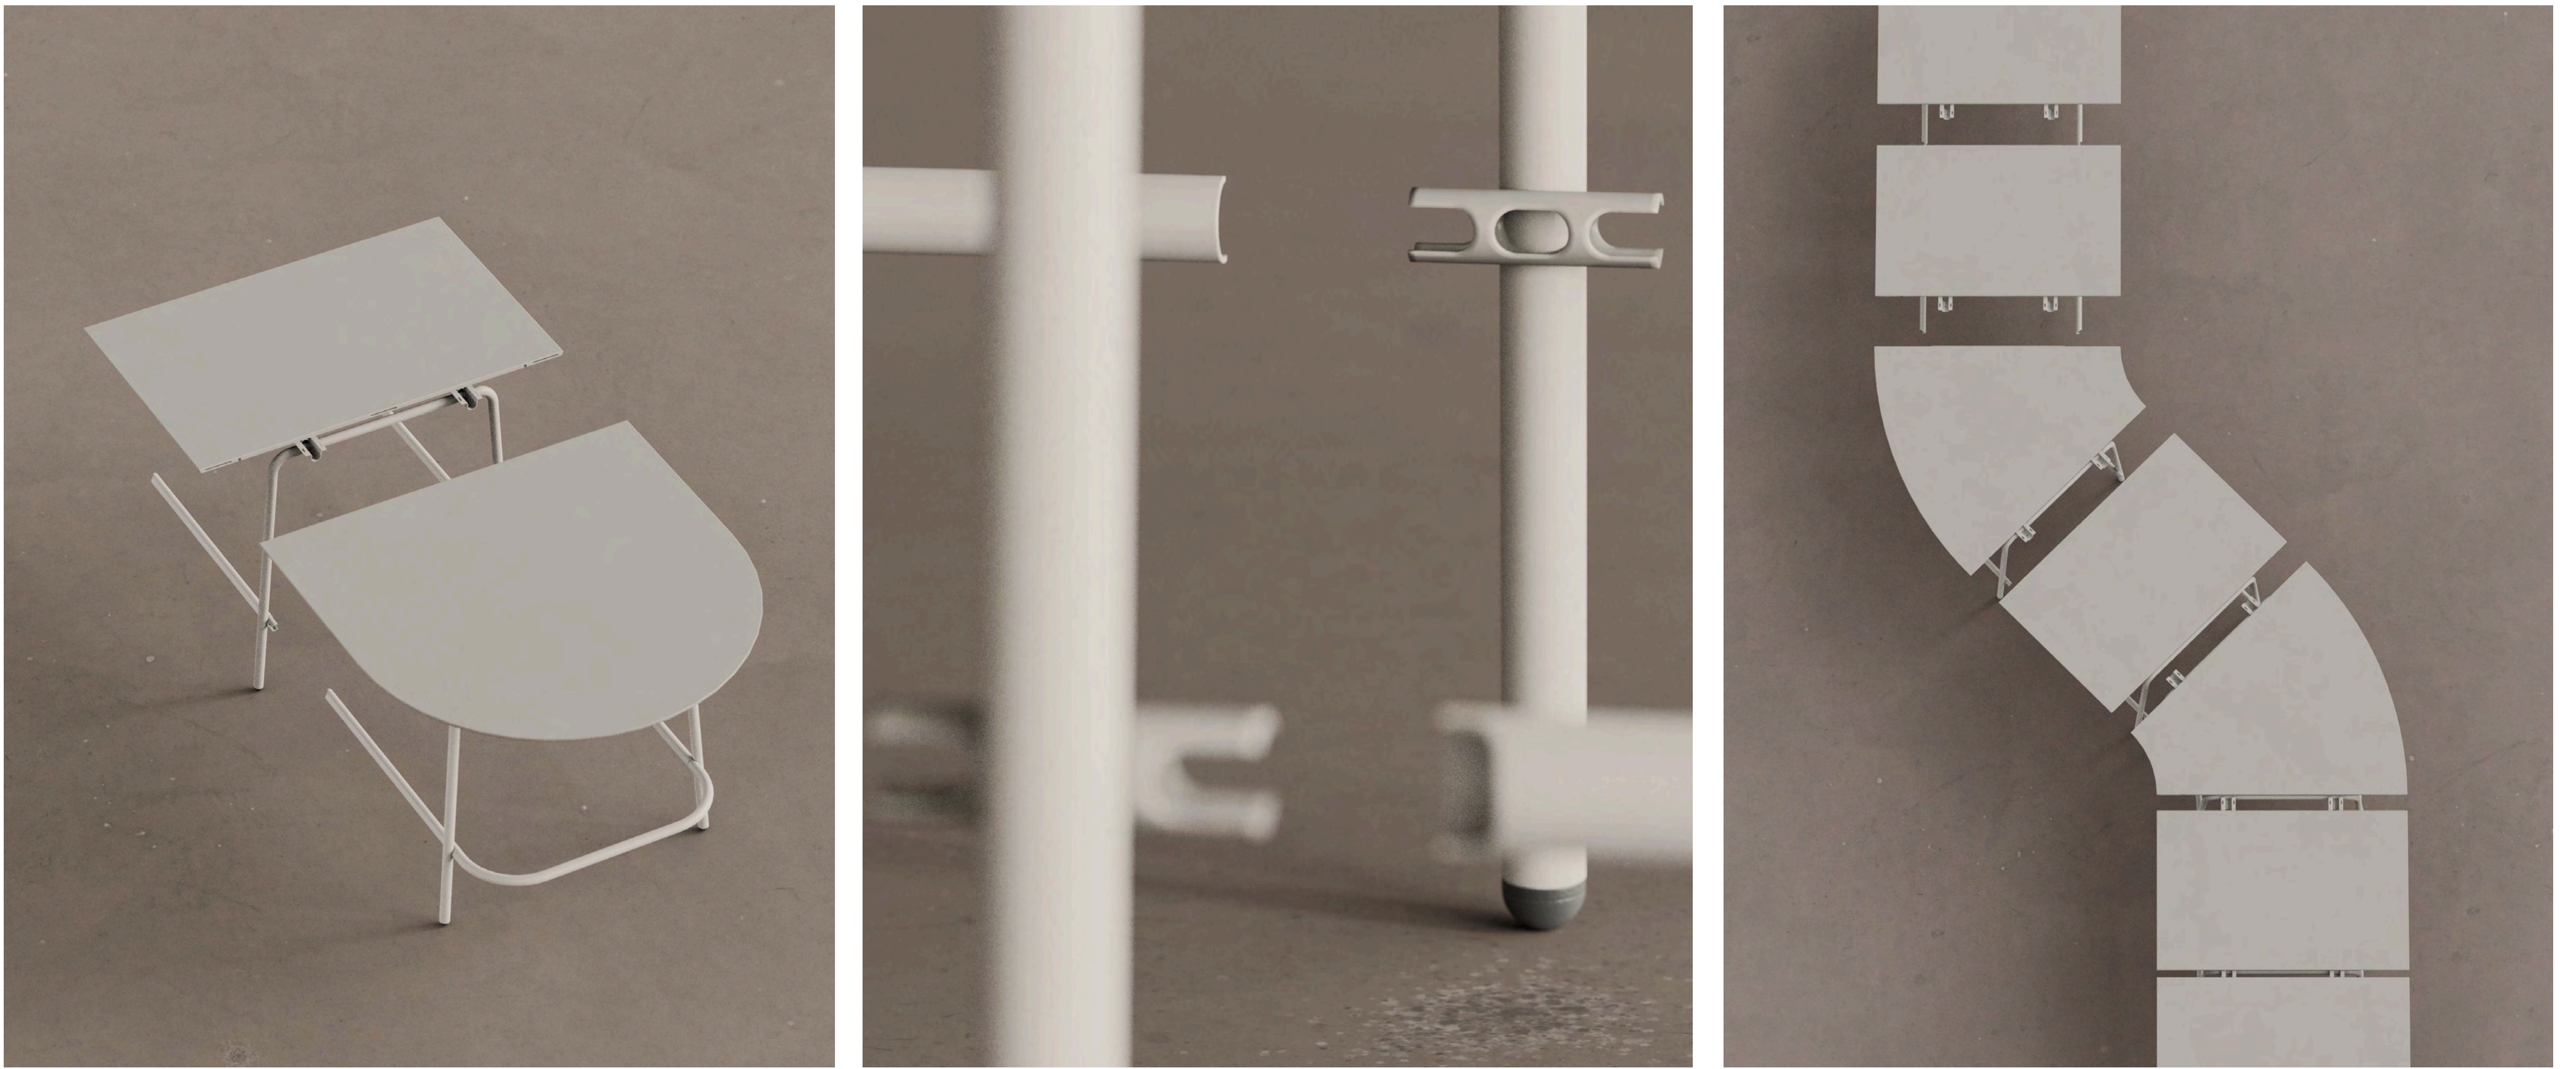

OE Plateau 2 module
CEE/3 EU + USB-A & USB-C

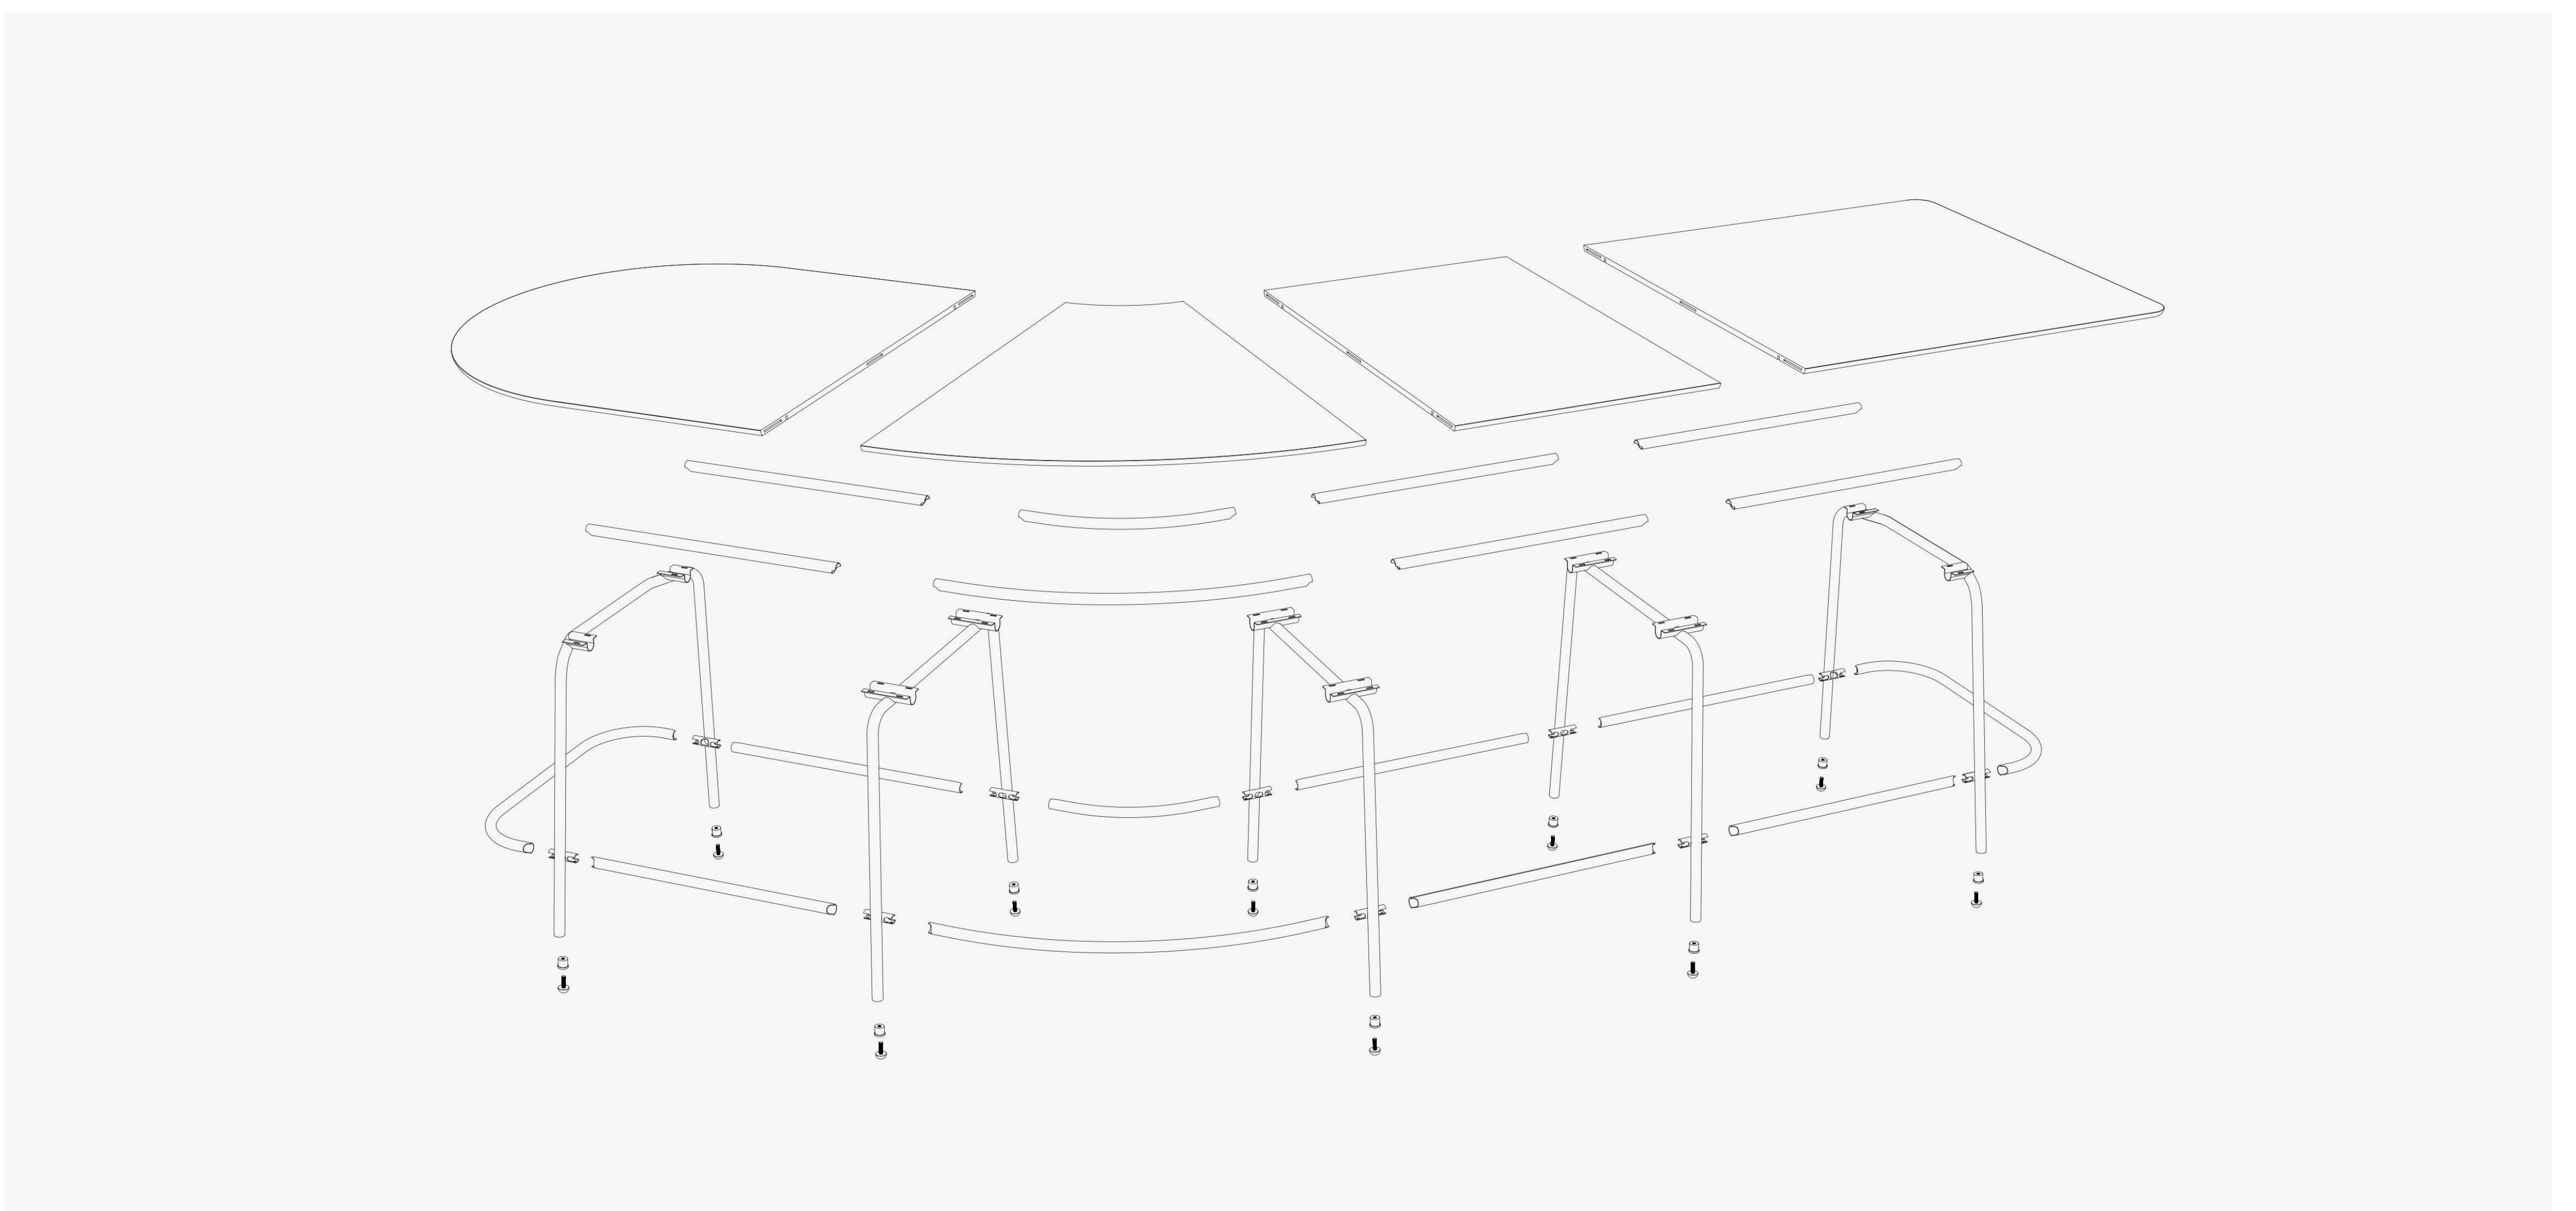

OE Plateau 3 module
2 x CEE/3 EU + USB-A & USB-C

Assembly

The tables are shipped flatpacked and are easily assembled

Example of components

Examples of configurations:

H: 95 W: 140 L: 770
End Round / Angle / Center / Angle / Center / Center / End Round

H: 105 W: 140 L: 370
End Round / Center / End Round

H: 74 W: 100 L: 550
End Square / Center / Center / Center / End Square

H: 74 W: 140 L: 370
End Square / Center / End Square

H: 105 W: 140 Ø: 380
Angle / Angle / Angle / Angle / Angle / Angle / Angle / Angle

H: 74 W: 140 L: 280
End Round / End Round
