Framery One Work™

framery

The smart and soundproof office phone booth
shaping the workspace of tomorrow

Framery One Work is a smart and soundproof workstation pod designed for one person and built for long sessions of focused work. It features a full-sized, height-adjustable desk, Class A soundproofing, adaptive ventilation, and versatile lighting — making it the best-equipped private workstation for modern workplaces. With plenty of room inside, Framery One Work gives you a spacious, comfortable environment where you can settle in, focus, and do your best work.

framery

Framery One Work / Product highlights

Workdays that flow with ease

Framery One Work has been purposefully designed to make your workdays flow better. Find and book the pod in advance or on-the-fly from the Framery app. Or step inside and the pod automatically creates a reservation for you. Extend your reservation directly from the pod's touchscreen, or adjust your booking through the app.

Full privacy

The fine-tuned acoustic structure provides A-Class soundproofing that allows the pod to be placed next to workstations without causing noise distractions to the user or to those outside of the pod. And echo-free interior acoustics make the pod a private, comfortable place for work and video calls. Visual privacy films ensure you can stay in the flow without interruptions, even in the heart of a busy office.

Airflow that keeps you fresh

The pod recognizes when it's occupied, senses the temperature and humidity of the surroundings, and triggers adjustments to the airflow accordingly. Enhanced ventilation fully refreshes the air every minute, and ventilation can be easily adjusted through the pod's touchscreen.

Lighting that makes you feel good

Automated dual-lighting sources adapt to your needs, with preset lighting options to choose between work or video modes. Video-optimized lighting helps you shine on video calls. Adjustments can be made quickly and easily through the touchscreen display.

Framery One Work / Tech features

1. A-CLASS SOUNDPROOFING

Guaranteed privacy with an industry-leading Class A speech level reduction of 30dB and one of the industry's top ISO 23351-1 ratings for office phone booths.

2. ADAPTIVE AIRFLOW

The pod senses the surrounding temperature and humidity and adjusts the airflow accordingly. It can also be adjusted manually.

3. AUTOMATIC LIGHTING MODES

The 4000K LED light sources let you seamlessly switch between video and work modes – or make manual adjustments for personalized illumination.

4. 8-INCH TOUCHSCREEN

An intuitive, 8-inch high-resolution touchscreen makes it easy to control pod settings, adjust lighting and airflow, and extend calendar reservations effortlessly.

5. OCCUPANCY LIGHTS

The occupancy lights in the top corners outside the pod indicate the pod's status: green for vacant, yellow for a reservation starting soon, and red for occupied.

6. BUILT-IN 4G CONNECTION

Connected through 4G or Wi-Fi, enabling the smart features and future-proof technology.

7. AUTOMATIC UPDATES

Receive automatic over-the-air (OTA) feature, system, and maintenance updates – available only for connected pods.

8. USAGE DATA

With built-in occupancy sensors, your pod automatically feeds anonymous usage data straight into Framery Connect – giving you actionable insights to continuously optimize your workplace.

9. BOOKABLE PODS

Make your smart pod bookable like any meeting room. The pod's touchscreen will show reservations, and you can manage them on the spot.

10. AUTOMATED WALK-IN RESERVATIONS

Step inside to instantly create a walk-in reservation that syncs with your company calendar.

11. EXTERNAL ROOM PANEL

Add Framery Room Display to the outside of your pod to show upcoming reservations and make on-the-spot bookings.

12. MONITOR STAND

Choose between one or two displays. The monitors are not included.

framery

Framery One Work easily fits into any office thanks to its efficient footprint and easy movability. Its spacious interior features a full-sized, electric height-adjustable desk, offering flexibility for every user and seamless transitions between sitting and standing. Optional additional displays make it ideal for long sessions of focused work. Framery One Work is the best-equipped private workstation for modern workplaces, designed to adapt to changing office layouts and needs.

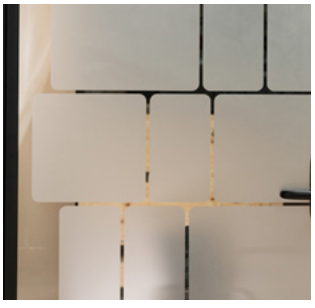

Enjoy a full-sized workstation tailored to your needs. While a sturdy fixed desk is standard, you can upgrade to an electric version for full height-adjustability and to seamlessly transition between sitting and standing for ideal ergonomics.

Choose between multiple screen layout options to optimize your workspace's usability: a wide screen up to 40" or two screens next to each other (up to 27" each) in either landscape or portrait orientation.

Stay fully charged throughout your work session with power outlets, USB-C PD charge ports (140W) and LAN ports.

In addition to industry-leading soundproofing, our privacy films offer smooth visual privacy for uninterrupted work.

The exterior occupancy lights show at a glance whether the pod is available, about to be reserved, or taken.

A wide doorway and low threshold enable an easy entry for wheelchair users in accordance with ADA guidelines.

MATERIALS AND FINISHES

EXTERIOR PANELS made from steel feature a powder-coated matt finish. The lightweight panels are joined together seamlessly, with elegant curves that create a timeless design.

INTERIOR PANELS made from high-quality and recycled polyester have a vibrant and dynamic look thanks to the mix of the two-colored fabric.

SEATING MATERIALS are a blend of superior New Zealand wool and polyamid that form a soft and rich texture. The extremely durable fabrics are both dirt and water repellant.

CARPET FLOORING is anti-static, stain resistant, and durable, giving the pod an overall soft look and finish.

Framery smart office solutions / Make any space smart with Framery

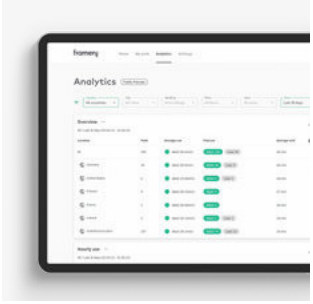

Framery smart office solutions are workplace tools that help workplace managers make data-driven office design decisions and access workplace insights through intuitive dashboards. The seamless room booking solutions deliver a premium employee experience.
Pair the solutions with Framery smart pods, or turn any office space into a smart workspace.

NEW

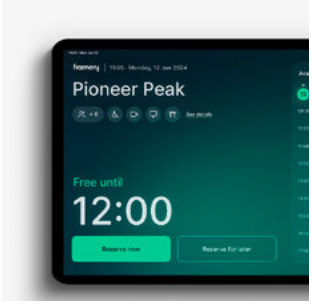

Framery Room Sensor™

WORKPLACE MANAGEMENT Utilize private and advanced occupancy and people-counting data to create the ideal work environment for both focused solo work and collaboration. Identify underutilized and improperly used spaces to make precise layout adjustments, effectively cutting costs and maximizing real estate ROI.

Framery Connect™

WORKPLACE MANAGEMENT
A smart platform for workplace management.

framery

Framery smart pods / Environmental data sheet

The furniture industry faces a systemic waste crisis, with approximately 80% of products ending up in landfill. Framery addresses this problem by maximizing the useful life of every asset by pioneering material and design innovation—ensuring our smart pods can be repaired and refurbished rather than replaced. Underpinned by high-trust, third-party frameworks, our products are engineered to deliver decades of service.

Verifiable Sustainability & High-Trust Frameworks

At Framery, sustainability is a strategic driver of market leadership rooted in data-driven transparency, science-based targets, and third-party validation:

- Science Based Targets initiative (SBTi): Framery is committed to targets aligned with limiting global warming to 1.5°C. Having reduced absolute Scope 1 and 2 emissions by 52% in 2025, we remain on track toward our 2030 target of a 50% absolute Scope 1 & 2 reduction and a 52% Scope 3 economic intensity reduction per EUR value added (from a 2024 base year).
- Third-Party Verified Data (EPDs): Over 90% of our smart pods' mass is modeled using supplier-specific data rather than industry averages. We publish third-party verified Environmental Product Declarations (EPDs), Health Product Declarations (HPDs), and Declare labels to satisfy the rigorous value-chain reporting needs of global organizations.
- Supply Chain Integrity & Governance: Framery holds an EcoVadis Gold Medal sustainability rating, placing the company among the top 5% of assessed companies globally. Furthermore, 99.7% of our supplier spend is covered by our renewed Supplier Code of Conduct.

Circularity by Design & Material Innovation

Framery smart pods are engineered to maximize usefulness while minimizing environmental impact:

- Mono-Material Engineering: Smart pods are built primarily from high-grade, easily recyclable mono-materials, such as steel, aluminum, glass, and acoustic PET, to simplify end-of-life recycling and support a closed-loop economy.
- Modular Serviceability: Every pod features an adaptable, modular architecture with easily replaceable components, enabling seamless repairs, upgrades, and relocations.
- Proven Durability: Engineered to withstand heavy daily office use, our pods are built to last—with units in active use logging over 15,000 work sessions without compromising quality or performance.

Software-Driven Efficiency

Sustainability extends beyond manufacturing into everyday office operations. Framery integrates physical workspaces with digital software to ensure every pod delivers maximum utility throughout its lifespan:

- Over-the-Air (OTA) Energy Optimization: Through software-driven adaptive airflow, optimized ventilation modes, and intelligent lighting, smart pods automatically minimize electricity consumption during default work, video call, idle, and refresh states.
- Maximizing Space & Asset Utilization: In 2025 alone, users spent a total of 1,344 years inside Framery workspaces across over 27 million work sessions. Framery's Smart Office Solutions provides fine-grained, data-driven usage analytics. By helping organizations optimize footprint efficiency, our solutions prevent unnecessary physical expansion and maximize the productive life of every asset.

Certificates and studies available:

- Life Cycle Assessment (LCA)
- Environmental Product Declarations (EPDs)
- Health Product Declarations (HPD)
- Declare labels
- Möbelfakta
- UL GREENGUARD Gold
- Contribution to green building certifications such as LEED certifications, BREEAM, SKA and WELL

GOLD | Top 5% ecovadis Sustainability Rating MAY 2026

Framery has been awarded with a Gold Medal sustainability rating from Ecovadis sustainability – placing us among the top 5 % percent of companies assessed in the past year.

IBCCES CAR CERTIFIED AUTISM RESOURCE Framery CAR25540000 12/09/2026

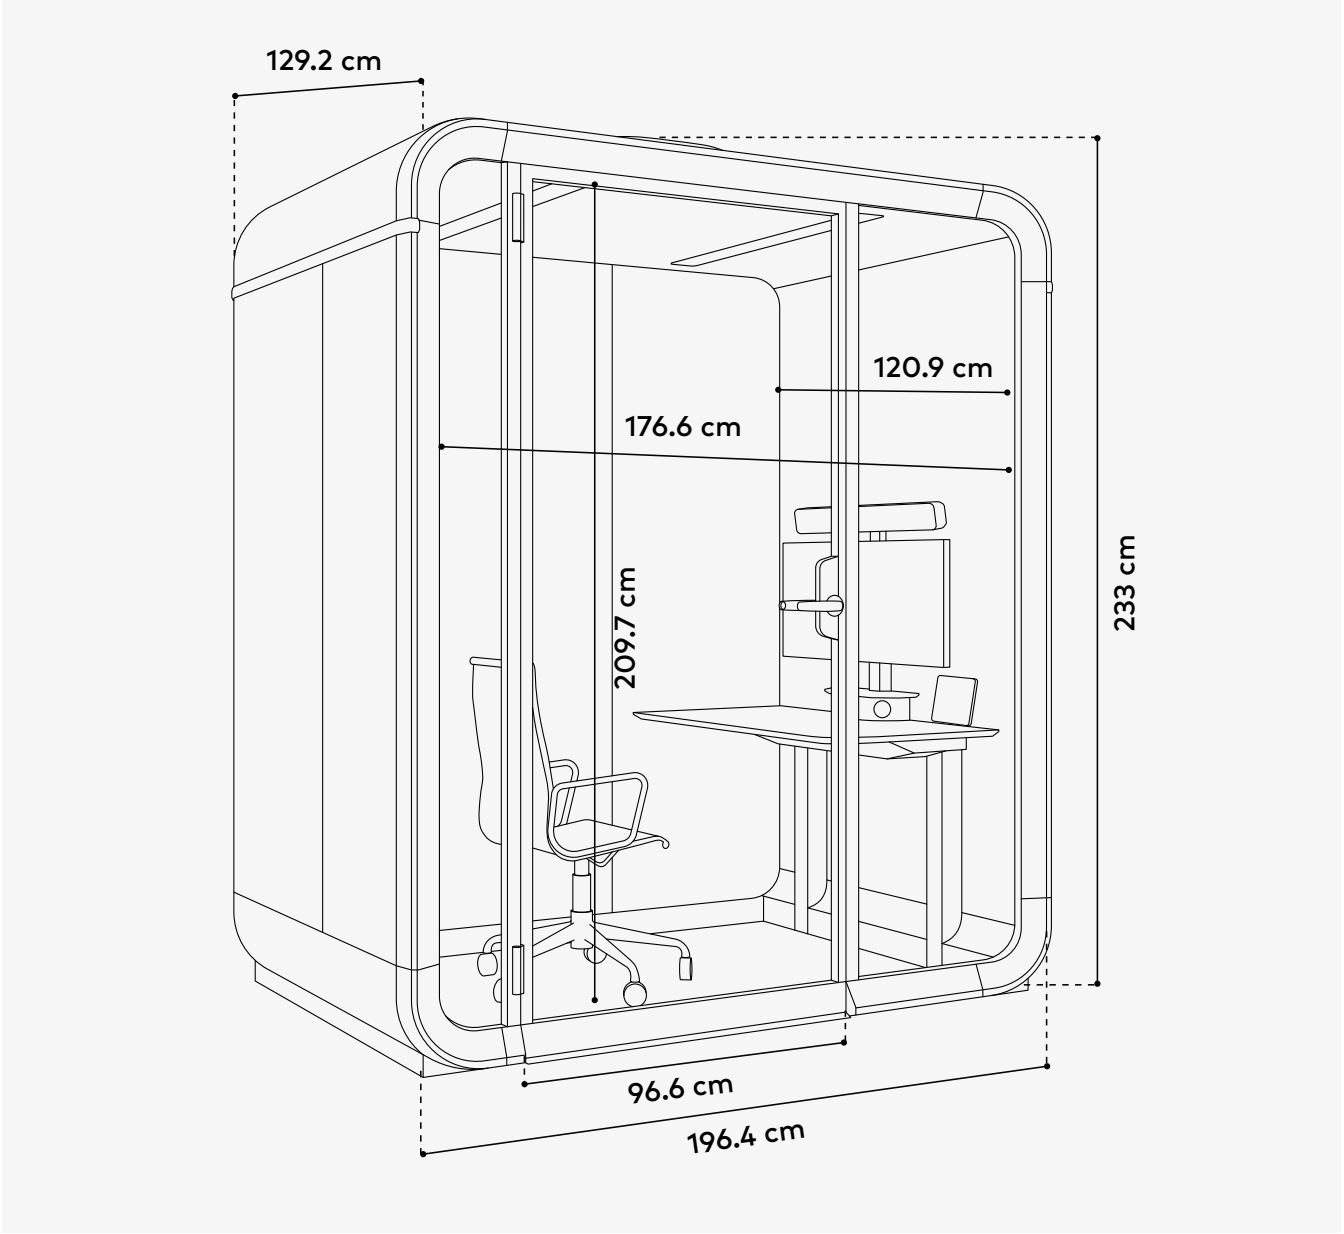

Framery holds the Certified Autism Resource (CAR) designation, earned after an IBCCES expert board certified its product aligns with competency areas to meet the needs of individuals with autism.

OVERVIEW

Soundproofing	**CLASS A 30 DS,A (DB) REDUCTION** Speech level reduction DS,A (dB) is measured using ISO 23351-1. Pod can be placed next to workspaces without compromising privacy.
Soundmasking	**FRAMERY OFFICE SOUND MASKING SYSTEM™** A pre-fitted sound masking system improves the soundscape of the office outside the pods with an effective radius of 5 m / 16 ft.
Ventilation	**MAXIMUM AIRFLOW** 53 l/s, 112 CFM (191 m3/h). **DEFAULT AIRFLOW** 31 l/s, 65 CFM (111 m3/h) when in use. After use, the pod refreshes itself with a higher ventilation speed. **STANDBY MODE** 24 l/s, 51 CFM (86 m3/h). **ADJUSTABLE DIRECTIONAL AIRFLOW** Choose between direct and indirect airflow.
Lighting	**DOUBLE CEILING LIGHT** Color temperature 4000K, illuminance up to 375 lux on the table top. **VIDEO LIGHT** Color temperature 4000K, illuminance up to 500 lux on the user's face. **PRE-SET LIGHTING MODES** Standard mode & Video call mode. Lighting can also be adjusted manually.
Presence detection	**SENSOR TECHNOLOGY** mmWave radar.
Dimensions	**EXTERIOR** with air filter housing 232.9 x 196.4 x 129.2 cm / 91.7 x 77.4 x 50.9 in (h,w,d). **INTERIOR** 209.7 x 176.6 x 118 cm (h,w,d). **DOORWAY** 209.7 × 96.6 cm / 82.6 × 38 in (h,w). **WEIGHT** 488 kg / 1076 lb. **THRESHOLD** 1.25 cm / 0.5 in . **DOOR SWING ANGLE** 180°.
Touchscreen location	On the table.
Connectivity	Framery smart pods gather anonymous occupancy data, measuring when and how often spaces are used. Users in the space cannot be identified and no personally identifiable data is collected. The anonymous data is transferred via built-in 4G connectivity, or through a Wi-Fi connection and compiled and shown in the Framery Connect platform. WLAN Wi-Fi 802.11 a/b/g/n/ac 2.4&5 GHz
